Model 32

WHEELED AUTOMOTIVE CHARGER

The model 32 automotive battery charger is a heavy duty proven design. Applications include heavy duty fleet, industrial, marine, aircraft, and construction use, for boosting and slow or fast recharging of all 6V, 12V, 24V, 32V automotive batteries.

STANDARD FEATURES:

- Heavy duty copper wound transformer.
- Full wave rectifier - conservatively rated.
- Voltage selector switch: 6V, 12V/12V, 24V, 32V
- 8 position charge rate switch.
- Solid brass color coded high pressure battery clamps.
- 8 ft. #4 oil and temperature resistant charging cables.
- Industrial quality 2 hour electromechanical timer with hold position for slow parallel charging.
- Ammeter clearly marked in amps; rugged design.
- Polarity controlled with indicating lamp. Charger will not start unless battery is connected with correct polarity.
- D.C. automatic reset circuit breaker protection.
- Charging indicator lamp
- Low battery button.
